

A smarter way to resolve commercial disputes

SMEs write off over £40 billion each year because of commercial disputes, but there is now another way - the award-winning Escalate platform.

Even the most successful businesses experience the occasional bump in the road, such as a commercial dispute. However, pursuing disputes has traditionally been a costly, lengthy and risky undertaking. That is why we created Escalate - our multi-award winning process that eliminates financial risk and prioritises cash flow.

With Escalate, there is no restrictions on the types of cases we can tackle - including contractual disputes, negligence, and IP infringement - even if the dispute was previously written off. **This is why Ikoy has created this partnership with Escalate to assist with recovering medico-legal debts.**

Commercial disputes are part of corporate life for even the most successful businesses - but they can cause considerable damage when they are written off.

Over £40 billion a year is written off by SMEs, because they do not believe that there is a cost-effective solution to resolve their disputes. High upfront costs, spiralling legal bills, and the average litigation case spanning 18 months mean that many businesses reluctantly decide against pursuing valid claims.

Escalate is a multiple award-winning dispute solution that helps rather than hinders your cashflow. The Escalate process targets a result in less than three months by employing a team of experienced dealmakers to negotiate on your behalf. Our revolutionary approach, which removes all of your financial risk, is funded all the way to the High Court if necessary, so that you can focus on running your business.

Ikoy are experts in medico-legal administration. They are proud to have forged this partnership with Escalate.

Escalate complements their existing services including: Consulting, Credit Control, Start-Up Services, Bookkeeping, Secretarial, Training, Medicolist and Mailbox.

Please see www.ikoy.co.uk for full details.

“ The first time we looked at this entry we knew it would be a winner. The judges particularly liked the collaboration and scalability and value for clients. ”

Judging panel, The Law Society Excellence Awards
